**Trap - Neuter - Return**  
**The only humane solution for feral and community cats**

**Wild Thing – Feral Feline Fix**  
is a program of the  
**Friends of the Jefferson City Animal Shelter**  
PO Box 105932  
Jefferson City, MO 65110  
**WildThingFFF@gmail.com**

**Our program would not be possible without the veterinary clinics who are willing to accommodate our feral friends, and the unpredictable nature of cat trapping. We give a special thanks to each of them!**

**Here are the number of spay & neuter surgeries performed by each in 2023:**

Korn Surgical - 212

Eldon Spay & Neuter - 171

Westside Veterinary Clinic - 24

The Spay Neuter Project - 20

Greg Steck, DVM - 13

R Veterinary - 5

The Spay Neuter Clinic - 4

Countryside Vet Clinic - 1

# Washington Park Cats

Our friend and long-time supporter, Nancy Rau, has been the caretaker for the cats at Washington Park since before our inception in 2010. She was one of the first colony caretakers we worked with when we started our TNR program, at which time there were about 20 cats and kittens living at the park. Her years of dedication to the Wash Park cats is truly admirable! In addition to providing for the cats, Nancy has contributed a generous annual donation to our program for many years, which makes up a meaningful portion of our budget. Nancy and her husband are retiring, and moving out of state to be near their granddaughter, so we want to take this opportunity to thank her, and acknowledge her years of support and dedication to our feral friends. **THANK YOU, NANCY!!!!**  
**Enjoy your new adventure!**

Our Facebook profile picture is of 4 males from Wash Park that were neutered on 9-22-10

The photo on the first page is of the new insulated shelters we purchased and installed for the three remaining cats at Washington Park. After Parks & Rec cleared all of the vegetation from the hillside over the summer their previously hidden and camouflaged shelters were in need of an upgrade. We appreciate the City's acceptance of the cats, and of our program.

**The Washington Park cat shelters were placed  
In loving memory of Samuel "Sammy" Clemons  
(October 18, 2001 - January 10, 2023)**

Sammy loved cats, and he loved helping Wild Things. He looked after the cats in his neighborhood, and at Sonic where he worked. He helped us trap the cats in these areas, donated bags of cat food, and pitched in to feed the Dulle Tower cats when we needed backup. He had such a big heart and his life was taken much too soon. His mom, Jennifer, suggested his memorial donations be made to us, which we were so honored and humbled to receive. We used some of these funds to purchase the new beautiful shelters for the Washington Park cats. And now his mom is one of the volunteers who helps feed the cats at this park.
